

## LEAD SERVICE REMOVAL AGREEMENT

PROPERTY OWNER(S): \_\_\_\_\_

PROPERTY ADDRESS: \_\_\_\_\_

CONTRACTOR: \_\_\_\_\_

DATE: \_\_\_\_\_ TOTAL CONTRACT AMOUNT: \_\_\_\_\_

*(Please attach quote. Only eligible costs will be used to determine reimbursement amount)*

THIS AGREEMENT is made by and between the VILLAGE OF NORTH FOND DU LAC UTILITY (the "UTILITY"), the above named Contractor (the "CONTRACTOR") and the above named Property Owner (the "PROPERTY OWNER") for the payment of the CONTRACTOR by the UTILITY for removal of the private lead water service.

The Village and the Utility have arranged for funding for payment of the costs associated with the removal of the lead service from the affected property. The Utility will pay for up to \$3,000 of the PROPERTY OWNER's lead service removal costs. The PROPERTY OWNER has selected the CONTRACTOR, as a contractor that has been pre-qualified for participation in the lead service removal program.

Typical costs that are eligible for reimbursement under this program include: excavation, materials, labor, backfill, restoration, and no-dig methods of pipe installation. Non-typical costs at a property may also be reimbursed as part of the program, pending review and approval by the UTILITY. A non-typical cost could include the cost of rerouting the private portion of the lead service line to a more acceptable location within a structure when it results in an overall cost saving, or foundation damage resulting from replacing the water service. The lead service removal is from the existing water meter site to the curbstop only.

Costs that are **not eligible** for reimbursement include, but are not limited to, replumbing inside a home/facility upon water meter relocation.

NOW, THEREFORE, the Parties hereto do hereby agree in and to the following:

1. The UTILITY has approved including the replacement of the PROPERTY OWNER's lead water service line in the UTILITY's Lead Service Line Replacement Program
2. LEAD SERVICE REMOVAL: The CONTRACTOR will remove the lead service currently serving the Property in the manner and within the time frame made, provided and described in the accepted quote.
3. SITE RESTORATION. Upon completion of the lead service removal Project the CONTRACTOR shall restore the Project site to its pre-existing or better condition prior to final payment.
4. PROJECT PAYMENT. Upon completion of the Project and completion of the site restoration, the CONTRACTOR's invoice, based on the accepted quote for lead service removal, will be paid through the CONTRACTOR's submission of a final invoice and Application for Payment Costs. The CONTRACTOR agrees to apply the payment received from the UTILITY against the Contract Amount. Ineligible costs will not be reimbursed. Payment of the CONTRACTOR's invoice by the UTILITY shall be made within thirty (30) days after receipt and approval of the above required submissions.
